

STOCK DONATION INFORMATION

A gift of stock is another way to support Curesearch and receive a tax benefit. If your investments have increased in value since you acquired them, a gift can result in a charitable gift tax deduction of the appreciated value of the property, and the reduction or elimination of capital gains tax. Your tax advisor can help you tailor a meaningful gift to help find a cure for childhood cancer with little or no effect on your expendable income.

How to donate stock

Electronic delivery of stock is the most secure and expedient delivery process available and provides internal control as well as cost savings. You can also transfer certificates directly. All stock gifts will be valued at the average market price on the day securities enter our account.

Securities delivered electronically

Gifting securities through electronic transfer allows your broker to transfer shares using the Curesearch DTC number. Your broker should use the following information for the transfer:

BROKER TRANSFER INSTRUCTIONS	
Company	Goldman Sachs & Co.
DTC #	0005
Account #	003-582590
Account name	Curesearch for Children's Cancer
Contact	Tahira West
Email	tahira.west@curesearch.org
Curesearch EIN	95-4132414

Stock transfers do NOT include information about the sender, so please alert us to the transfer by contacting us at donorservices@curesearch.org or (240) 235-2283 so that we may ensure receipt of the gift, and properly thank you as the donor.

Securities delivered by mail

Mail your unendorsed certificate(s) with stock waiver and stock power, in separate envelopes, by registered mail to:

Curesearch for Children's Cancer

ATTN: Tahira West
4800 Hampden Lane
Suite 200, PMB 183
Bethesda, MD 20814

Notification of donor intent

Regardless of the method chosen to deliver a gift of stock, the donor or the transferring broker must complete the Securities Contribution Instructions form for audit and acknowledgment purposes.

Curesearch will notify you when we have received your stock gift. Thank you for your interest and generous support of Curesearch.
