LETTER FROM THE CEO

At CureSearch for Children’s Cancer, protecting the future of our children starts now. That is why 2016 was a year for building bridges, driving collaboration and exploring new strategic opportunities to advance pediatric cancer treatments to children in the clinic. In this way, we continue moving forward in our ultimate goal: finding less-toxic treatments for children with cancer so they can live longer and healthier lives.

The inaugural Catapult Summit held in February was a testament to this effort, bringing together researchers, key advisors, industry and academic experts to develop concrete milestones and outcomes for our Research Strategy.

The evidence of our impact is also showcased by the 67 events held in 2016 that spanned across 32 states. These events not only drive awareness of the importance of pediatric cancer research, but also raise critical funds for our research programs. Programs like Dr. Kung’s, a recipient of the CureSearch Acceleration Initiative grant, who is now able to dedicate his work to finding new treatments for high-risk pediatric sarcoma patients that have low 5-year survival rates.

We could not have accomplished this without your support and dedication to our mission to end childhood cancer. To all our partners, donors and volunteers, thank you for everything you do.

Laura Thrall
CEO, CureSearch for Children’s Cancer
CURESEARCH MISSION
Our mission is to end children's cancer by driving targeted and innovative research with measurable results in an accelerated time frame.

RESEARCH VISION
Improve children's cancer treatment and cures to deliver the potential for childhood cancer patients to lead long, healthy lives.

OUR IMPACT
Through our research programs, we support researchers and projects that are laser-focused on accelerating treatments with results.

2016 KEY HIGHLIGHTS INCLUDE:

12 new drugs in pre-clinical testing for high-risk brain cancer, sarcoma, leukemia and Wilms tumor

230 potential new drug targets being studied for 9 types of children's cancer

1 novel cell therapy for AML

1 novel drug for Ewing sarcoma nearing pediatric clinical trials

1 clinical trial for adolescent/young adult transition
THE CURESEARCH DIFFERENCE

We focus only on children’s cancer.

We hold ourselves - and our grant recipients - accountable through a novel measurement framework and frequent reporting to our constituents.

We’re not here just to fund research, we’re here to *drive patient impact*.

We provide children and families with the tools and resources they need to battle cancer today, while advancing new and better treatments to protect their future.

Our Advisory and Scientific Review Councils make up an unmatched brain trust.

We convene leaders across sectors (academia, pharmaceutical industry, regulatory agencies, patients) to collaboratively advance better, less-toxic treatments.

We invest in large-scale grants over a three-year timeframe, which allows our researchers to focus on their work, not fundraising.

We catapult great research out of the laboratory and into clinical trials and commercialization, to the point where new treatments reach children.
CURESEARCH RESEARCH STRATEGY

Our research strategy and its programs advances better, less-toxic children’s cancer treatments to children faster. We support researchers through funding, as well as through guidance, knowledge, and relationships to navigate the regulatory environment and clinical trials network to ensure the greatest chance of success.
YOUNG INVESTIGATORS

$1.35M over three years (2015-2017)

The CureSearch Young Investigator (YI) program is designed to attract early-stage investigators and fund transformational science. CureSearch awarded six grants in 2015. After two years, each of the grantees have made substantial progress towards finding new treatments.

In November 2016, a total of $1.26M was awarded to Andrew Kung, MD, PhD, from Memorial Sloan Kettering Cancer Center in New York. His project will study high-risk pediatric sarcomas—rhabdomyosarcoma, Ewing sarcoma, osteosarcoma—and identify key master regulators using a novel molecular profiling platform.

Andrew Kung, MD, PhD
Memorial Sloan Kettering Cancer Center

*Integrative analysis to identify new therapies for pediatric sarcoma*

$1.26 million

- 1 novel approach to find genetic drivers of sarcoma
- 1 new animal model to be generated to test novel treatments
- 3 new drugs to be matched to genetic drivers for 3 pediatric sarcomas: rhabdomyosarcoma, osteosarcoma, Ewing sarcoma
2013–2016

Mary Beckerle, PhD
Huntsman Cancer Institute
University of Utah
Epigenetics
$1.73 million
• 1 lead compound close to pediatric clinical trials
• 1 novel biomarker study developed
• 1 novel imaging study developed
• 35 pediatric Ewing sarcoma biopsies

William Weiss, MD, PhD
The Regents of the University of California, San Francisco
Epigenetics
$1.88 million
• 3 drugs for high risk MB in preclinical testing
• 28 pediatric brain biopsies studied
• 2 novel tumor model designs
• 1 novel gene signature linked to high-risk medulloblastoma (MB)

Kathleen Sakamoto, MD, PhD
Stanford University
Immunotherapy
$1.37 million
• 1 novel treatment for multiple pediatric cancers
• 2 adult trials underway
Two awardees selected in partnership with Rising Tide Foundation for Clinical Cancer Research.

Richard Gilbertson, MD, PhD
University of Cambridge
*Targeted Therapies for High-Risk Brain Tumors*

$835k
- 3 high-risk brain tumor subtypes
- 5 new pre-clinical models developed
- 3 compounds in pre-clinical testing
- 1 novel pre-clinical trial design

Maria-Grazia Roncarolo, MD
Stanford University
*Cell-based Therapy for AML*

$855k
- 7 new cell lines developed for novel cell therapy
- 40 pediatric AML samples in pre-clinical testing
- 1 clinical trial planned within three years
CATAPULT SUMMIT

Menlo Park, CA

In February 2016, CureSearch hosted the inaugural Catapult Summit. A private and strategically curated event, Catapult Summit convened nearly 60 participants who represented academia, industry, policy regulation, private foundations, and parents. All are leaders in the fight to end children’s cancer.

Our shared goal: to find solutions that move promising new cancer treatments and cures out of the academic lab and into clinical trials.

CureSearch is proud to play the role of neutral convener and collaborator to bring these key parties together in a way that is singularly focused on accelerating the commercialization of children’s cancer treatments to save children now.
COMMUNITY IMPACT AWARDS

CureSearch is proud to support hospitals through the CureSearch Community Impact Awards. Launched in 2015, we reaffirm our commitment to protecting the future of every child with cancer by providing psycho-social and caregiver resources. **By the end of 2016, CureSearch supported 27 projects at hospitals across the U.S., totaling $600,000.**

The awarded **CCIA grants support community hospital programs** in the following areas:

- Art and music therapy
- Survivorship resources
- School re-entry
- Biofeedback
- Psychosocial assessment of patients during treatment
- Adolescent and young adult transitions

**2016 HOSPITALS AWARDEES:**

- Miami Children’s Health System Foundation, Inc.
- Stony Brook Foundation, Inc.
- Teddy Bear Cancer Foundation
- Oregon Health & Science University
- Rocky Mountain Hospital for Children at Presbyterian/St. Luke’s Medical
- Lehigh Valley Hospital, Inc.
- Methodist Children’s Hospital
- Covenant Children’s Hospital
- Ann & Robert H. Lurie Children’s Hospital of Chicago
- Newark Beth Israel Medical Center
- Nemours Children's Specialty Care
- New York University School of Medicine

SUPPORTING FAMILIES

No family should face a cancer diagnosis without a fully equipped team behind them. CureSearch continued its commitment as an authoritative source for education and resources in 2016 by offering:

COMMUNITY EVENTS
- 22 CureSearch Walks
- 5 Ultimate Hikes
- 40 Gold Ribbon Events
- 32 States in more than 50 cities

2016 CURESEARCH WEBSITES
- Unique visitors: 758,662
- Pageviews: 2,059,053

INTERACTIVE RESOURCES
- Webinars for school, caregiver and family support
- Informational videos about children’s cancer
- CancerCare, a cancer diagnosis management mobile app for families and caregivers

EDUCATIONAL MATERIALS
- Web content on coping with cancer
- Children’s cancer facts and figures

In 2016, the CancerCare app was downloaded over 730 times!

LEGACY AND CHAMPION FUND DONORS

CureSearch for Children’s Cancer offers Legacy Funds, a special way for families to honor their child’s memory and continue the fight against pediatric cancer through a named fund that can be designated to support research projects, clinical trials, or other CureSearch initiatives. CureSearch is pleased to also offer Champion Funds to recognize children currently in treatment or who are now in remission. A Champion or Legacy Fund is a great way to further your personal commitment, or your team’s commitment, to finding a cure for children’s cancer. In 2016, CureSearch for Children’s Cancer was honored to partner with families to sponsor the following funds:

- Amy Miller Champion Fund
- Danielle’s Roses Champion Fund
- Eloise Gould Legacy Fund
- Jacob Koenigs ‘Jakefest’ Memorial Fund
- Joey Keller Legacy Fund
- Luke McGuire Legacy Fund
- Nick Currey Legacy Fund
The CureSearch CUREsaders are monthly donors who provide ongoing support to fund novel and innovative cancer research with automated monthly or quarterly gifts.
